THE COMPANY

JILAC Engineering Company Limited (JILAC) is a fully Ghanaian owned company, registered on November 5, 2013 under the Ghanaian Companies Code (1965, ACT 179). It provides state-of-the-art professional construction and consultancy services including, project management and refurbishment services in an eco-friendly manner.

The company is certified as D1K1 Contractors under Ministry of Water Resources, Works and Housing; A3B3 Contractors under Ministry of Roads and Highways. JILAC is a member of The Association of Buildings and Civil Engineering Contractors of Ghana

AIM

The company's primary aim is to deliver high-quality services to clients and their representatives while consistently using environmentally friendly practices.

CORE VALUES AND QUALITY ASSURANCE

JILAC takes pride in its core values: Quality & Speed, Safety, Cost Efficiency, Innovation, Timeliness, and Professional Integrity. These principles define our services. We are supported by a team of young, experienced, and dynamic professionals who uphold these values, which are the foundation of our commitment to quality and efficiency.

MISSION STATEMENT

Our mission is to deliver fast and high-quality civil engineering, general building construction, and water engineering services to individuals, private, and public institutions. We aim to exceed clients' expectations through the expertise of qualified professionals while upholding the highest standards of professionalism, integrity, honesty, and fairness in all our relationships.

VISION

To be the standard bearer for timeliness, quality, and speed in the civil engineering, building construction, and water management industries in Ghana and West Africa.

OUR PHILOSOPHY

We are skilled builders who believe in the power of talented, inspired, and motivated people to achieve extraordinary results.

To realize this goal, we carefully select and retain the right individuals. Our success in every project stems from this philosophy. We continuously invest significant resources in workshops and in-service training to develop our employees.

We focus not only on building infrastructure but also on fostering the growth of our people.

QUALITY COMMITMENTS

JILAC's quality management system, reviewed regularly, aims to meet **ISO9001:2008** standards. It focuses on providing employees with the necessary training, resources, and support to deliver quality work. The company fosters strong client-supplier relationships and attracts skilled personnel to ensure high-quality services, meeting legislative and project standards for long-term success.

GENERAL STATEMENT

JILAC is committed to providing a safe, accident-free, and healthy work environment for employees, partners, suppliers, subcontractors, and the public. To achieve this, the company has implemented an Occupational Health & Safety Management System that complies with the OHSAS 18001:2007 standard.

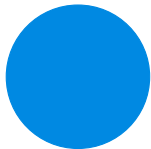

Our Services

Our general areas of interest and specialization are;

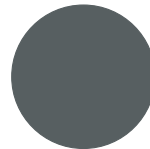

- Residential Construction (Homes, Apartments, etc.)
- Commercial Construction (Offices, Retail spaces, etc.)
- Industrial Construction (Factories, Warehouses, etc.)
- Civil Engineering (Infrastructure projects, roads, bridges, water systems and services)
- Renovations and Remodeling (Upgrades to existing structures)
- Design (Building services)
- Project Management and Evaluation
- Cost Estimation and Budgeting
